Welcome Message

Thank you for your interest in the XXVI Congress of the International Society on Thrombosis and Haemostasis (ISTH) and 63rd Annual Meeting of the Scientific and Standardization Committee (SSC).

ISTH congresses are the premier scientific events in the field of thrombosis, hemostasis and wider benign hematology and address the immediate and future scientific, laboratory and clinical opportunities and challenge.

ISTH meetings accomplish this by bringing together thousands of experienced, thought-leading clinicians and researchers as well as young scientists from around the globe who present their latest discoveries in their quest and commitment to advance the scientific understanding and translate scientific knowledge into new approaches to diagnosis and treatment of thrombotic and bleeding disorders.

Apart from an outstanding scientific and educational program that will foster this sharing of knowledge and advancing scientific discoveries, critically important for our attendees - and ultimately the patients - are the diagnostics and treatments that laboratory scientists and clinicians have at their disposal today or are in development.

We are therefore committed to giving the collaboration with our industry partners highest importance.

Through your presence at ISTH 2017, you will have the opportunity to connect with an expected 8,000 leading experts, many of whom are clinicians, clinical investigators in trials, key opinion leaders, educators and leading laboratory scientists from around the world who are dedicated to resolving clinical and laboratory challenges, developing new therapeutic approaches and improving the care of patients.

Your participation allows you to be part of essential discussions, directly interact with thought and opinion leaders from around the world, obtain insights into cutting edge developments, educate about and promote your products and services, and showcase your own scientific and therapeutic advancements and commitment to supporting the evolution of science and education in our field.

This is the most exciting time to be involved and we look forward to your partnership and support of one of the most important medical and scientific events in our field!

We look forward to welcoming you to ISTH 2017 in Berlin.

ABOUT THE CONGRESS

At ISTH congresses, thousands of the world’s leading experts on thrombosis, hemostasis and vascular biology come together to present the most recent advances, exchange the latest science and discuss the newest clinical applications designed to improve patient care.

Through an extensive line-up of educational sessions, poster and oral communications, state-of-the-art lectures, medical industry exhibits and professional networking opportunities, the congress promotes important scientific discourse and advancement. The ISTH holds a scientific meeting every year to exchange the latest clinical and research developments. In even years, the Society holds the stand-alone meeting of the Scientific and Standardization Committee (SSC). In odd years, the ISTH holds its biennial congress of which the SSC meeting is a part. During the past decade, the biennial congresses were held in Toronto/Canada (2015), Amsterdam/The Netherlands (2013), Kyoto/Japan (2011), Boston/USA (2009), Geneva/Switzerland (2007), and Sydney/Australia (2005).

ISTH congresses typically attract around 8,000 delegates from around the world, representing a wide range of scientific disciplines.

Sponsorship Levels and Priority Point System

ISTH PRIORITY POINT SYSTEM

The ISTH attributes sponsorship items and exhibition space at its meetings according to a priority point allocation system. This system rewards loyal industry partners who have been supporting ISTH meetings over the years and provides a clear and transparent process for our partner companies at their support and exhibition opportunities.

Points are calculated and rank positions determined by the total investment an industry partner makes during the three years leading up to the current meeting (SSC meetings and the ISTH congresses combined). Top ranking companies are given first priority to select symposium slots, exhibition space and other opportunities. Please click here for the full details on the ISTH point allocation and/or contact the ISTH Executive Director for more information.
SPONSORSHIP LEVELS

Industry partners receive acknowledgments and benefits according to their level of support for the ISTH 2017 congress.

As at previous ISTH meetings, there are four levels of recognition achieved by your total investment in sponsorship, symposia and exhibition from among à-la-carte options offered by the ISTH.

Excluding local tax, the levels are:

- **Platinum** ........................................... ≥ € 400,000
- **Gold** ................................................ € 250,000 to € 399,999
- **Silver** .............................................. € 150,000 to € 249,999

IMPORTANT NOTE

ISTH recognizes that the legal and regulatory environments change constantly and that different companies may interpret regulations related to exhibiting at and supporting medical meetings differently. What is deemed acceptable to support may differ greatly among companies, also, but not only, depending on the type of company and where the company is based. When developing the support options for this congress, ISTH has reviewed and taken into consideration the applicable laws, CME requirements and regulatory guidance from international, regional and national (country of the congress) organizations but recognizes that whether certain offerings may be supportable may not be interpreted uniformly. Therefore some items may be included in this prospectus that are not deemed appropriate by all companies.

If you have an idea for a service, sponsorship or promotional option not included in this manual, please contact the ISTH Executive Director. We are always happy to discuss opportunities that are in accordance with applicable regulatory and accreditation requirements and provide benefits to our delegates, industry partners and the ISTH.

All supporters of individual sponsorship opportunities will be acknowledged in the list of ISTH 2017 supporters in the Final Program and the ISTH 2017 congress website (in accordance with prevailing CME guidelines).

Unless otherwise indicated, all amounts specified in this document are in Euros (€) and exclusive of federal or local taxes that may apply.

1. Sponsored Symposia

ISTH 2017 attendees are looking to be up-to-date with the latest information on products, scientific developments and solutions for their daily laboratory or clinical practice.

Our congress program offers several time slots of varying length and in varying room sizes for companies or organizations interested to inform ISTH 2017 attendees about their latest research, product developments or other scientific activities to organize sponsored symposia.

Sponsored symposia are organized by the sponsor or designated agent. The program must be scientific or educational in scope. CME accreditation will not be provided through the congress, is not required but may be obtained at the discretion and at the cost of the sponsor.

The sponsor is required to adhere to the official rules for speakers and chairpersons (page 25) at sponsored symposia and inform the ISTH 2017 Organizers of the content, format and speakers and obtain formal approval for the program.

All sponsored symposia must be held at the Messe Berlin/The City Cube Berlin during the official time slots offered by ISTH in this sales manual or otherwise determined. Organizers of sponsored symposia held outside the venue and not during an official ISTH slot will face penalties to be decided by the ISTH 2017 Organizers. These can include financial fines equivalent to a symposium cost and/or exclusion to participate at future ISTH meetings.

Content of sponsored symposia must comply with any relevant guidelines applicable to the sponsor, be held in English and be open to all delegates. It is the sponsor’s responsibility to interpret and comply with all applicable regulations or guidelines.

**HOURLY INDUSTRY MEETING ROOMS**

ISTH 2017 will also provide industry partners the opportunity to rent small meeting rooms accommodating up to 25 persons for a duration of up to one ½ day. Details and costs will be provided in the Technical Manual.
Industry Exhibition

The industry exhibition is an integral part of the XXVI Congress of the ISTH and 63rd Annual Meeting of the SSC allowing our attendees to learn about the latest products, services and solutions that will help them in their daily laboratory and clinical practice.

As an exhibitor, you will enjoy prime access to direct networking and marketing opportunities with key opinion leaders and decision makers in the field from around the world.

The exhibition area will occupy almost 15,000 square meters (approx. 160,000 square feet) of floor space in exhibition halls 2.2, 4.2 and 6.2a of the Messe Berlin with easy access for set-up and dismantling.

To maximize opportunities for delegates to visit and spend maximum time in the exhibition area, the exhibition halls also accommodate the scientific poster areas and will be set up as the main gathering areas for both attendees and exhibitors.

A daily (Monday - Wednesday) 75-minute time slot combines lunch with poster sessions and time for industry exhibit visits in the exhibition halls. In addition, breaks and a variety of meeting, networking, educational and attendee onsite services will be located in the exhibition halls.

The exhibition halls are located within close proximity to the main lecture halls that will be utilized for the scientific and educational sessions of the Congress and the program format has been specifically designed to minimize the time it takes for attendees to walk between the scientific sessions and the exhibits.

In addition, particular attention will be given to signage and decoration enabling an easy and convenient visit of the exhibits.

The receipt by the Organizers of a signed Application and Contract Form for Exhibition Space, Sponsored Symposia, and/or Sponsorship Opportunities shall constitute a binding contract (the “Contract”) upon issuance of an invoice to Contractor for initial charges, and delivery of that invoice to Contractor at the address in the Contract. No signature of ISTH shall be required.

The Organizers reserve the right to reject any application for space or sponsorship for any reason.

CONTRACT
The Contractor signing this Contract agrees to comply with the Terms and Conditions outlined by the Organizers and any additional or modified Terms and Conditions, rules, regulations, and information as may be adopted by the Organizers. If any Contractor changes management or is purchased by another company/organization, this Contract shall become binding on such company/organization.

The term “Congress” shall mean the XXVI Congress of the International Society on Thrombosis and the 63rd Annual Meeting of the Scientific and Standardization Committee of the ISTH as noted on the front page of the Exhibition and Sponsorship Manual.

The term “Congress Venue” shall refer to any exhibition hall, congress facility, hotel or other such building or structure, and anywhere within the precincts of such location under the control of the Organizers for the purposes and duration of the Congress.

CANCELLATION OF THE CONGRESS OR EXHIBITION

The Organizers are entitled to cancel the Congress due to reasons beyond their control that prevent or substantially hinder the planned holding of the Congress.

It is mutually agreed that in the event of total cancellation of the Congress due to fire, strike, natural disaster (either threatened or actual), government regulations or causes which would prevent its scheduled opening and/or continuance that are outside of the Organizers’ control, this Contract will become null and void. In such case, the Organizers shall determine an equitable basis for a refund of a portion of fees after due consideration of expenditures and commitments already made. Under no circumstances is the Organizers responsible for any Contractor’s or other person or company’s expenses (such as travel, lodging, or exhibit shipping), or any other incidental or consequential damages.

LIABILITY AND INSURANCE

This Contract shall not constitute or be considered a partnership, employer-employee relationship, joint venture or agency between the Organizers and any Contractors. Contractors agree to and shall indemnify, hold harmless, and defend the Organizers, its officers, directors, employees, agents, affiliates, and subsidiaries (collectively, “Indemnified Party”), from and against any and all liability, loss, damage, cost, or expense of any kind whatsoever (including but not limited to court costs and attorney’s fees) which any Indemnified Party may incur, suffer, be put to, pay, or be required to pay, incident to or arising directly or indirectly from any act or omission by Contractor or any of its employees, servants, subcontractors, or agents arising in any way from the Congress or Contractor’s participation therein. Contractor further agrees that the Indemnified Party shall not be responsible in any way for damage, loss, or destruction of any property of a Contractor or injury to a Contractor or its representatives, agents, subcontractors, employees, licensees, or invitees.

The Organizers will not be held responsible for any theft of, loss or damage to exhibitor’s goods or property. Contractors are reminded that they are required to take out their own insurance to cover such events as well as cancellation and public liability. Under no circumstances will the Organizers be held responsible for any loss or inconvenience suffered by individual Contractors. A certificate of insurance will be requested from each exhibitor/spONSOR who must demonstrate adequate Public Liability coverage.

Contractors must obtain insurance policies covering the transportation of materials to the Congress, during the Congress, and return. Contractors must also have public liability, bodily injury, and property damage insurance, as well as employer’s liability and workers compensation coverage (as applicable in the Congress location). Such insurance shall name the Organizers and the Congress Venue as additional insureds. Within 30 days of request, Contractors shall provide a certificate of insurance to the Organizers. Neither the Organizers nor the Convention Venue shall be required to maintain insurance covering Contractors’ property and personnel and it is the sole responsibility of Contractors to obtain sufficient insurance coverage.

LIMITATION OF DAMAGES

In no event will an Indemnified Party be liable to a Contractor, whether in contract or tort, or any other theory of legal liability, for any amount in excess of the fees and amounts actually paid by Contractor to Organizers. Further, Organizers shall not be responsible for consequential or indirect damages, including but not limited to lost profits, arising out of or relating to the Congress, any breach of this Contract, or any other act, omission, or occurrence.

HANDLING AND STORAGE

Neither the Organizers nor the owners or managers of the Congress Venue will accept or store display materials or empty crates. Arrangements may be made through the Official Drayer, and Contractors shall in any event provide the Official Drayer with copies of all bills of lading. All shipments and deliveries to the Congress shall be prepaid. Contractors shall not incur any obligation to the Official Drayer merely by reason of providing copies of any bills of lading hereunder.
CHILDREN AND ANIMALS
Children and animals are not permitted at the Congress without specific acceptance by the Organizers in writing.

CODES AND AGREEMENTS
Contractor hereby agrees to be bound by all Terms and Conditions as well as Rules and Regulations outlined in this Contract, and any additional rules, regulations, and information as may be adopted by the Organizers or the Congress Venue. Contractor further agrees to adhere to and be bound by (i) all applicable fire, utility, and building codes and regulations of the Congress Venue where the Congress is held; (ii) any rules or regulations of said facility; (iii) the terms of all agreements between the Organizers and the managers or owners of said facility; and (iv) all Federal, State, and local laws, codes, ordinances and rules. Without limiting the foregoing, Contractors shall construct their displays and ensure that their sponsorship items comply with all applicable laws, codes and regulations. Contractor shall not, nor shall Contractor permit others to, do anything to its exhibit space or sponsorship items or do anything in the Congress Venue which would cause a difference in conditions from those previously approved by the Organizers.

INDUSTRY GUIDELINES AND PHARMACEUTICAL REGULATIONS

Further, the Organizers shall have no obligation to inform Contractor if any of the codes and or regulations listed above is amended, superseded, or modified in any way, or if any other Laws are enacted.

Contractor shall be solely responsible for identifying the Laws applicable to its activities and operations, and ensuring its full compliance with them as necessary or appropriate for the Congress.

TECHNICAL MANUAL
A Technical Manual shall be provided to all Contractors at a minimum 180 days prior to the Congress. The manual shall contain details including but not limited to all logistical and technical aspects to the successful preparation and participation of the Contractors in the Congress.

ABSTRACT EMBARGO POLICY
Accepted abstracts are published on the Congress website in a searchable format at the latest two weeks prior to the meeting and will also be made available in other electronic ways.

Academic institutions, private organizations and companies with products whose value may be influenced by information contained in an abstract, may issue a news release to coincide with the availability of an abstract. However, the Organizers strictly requires that information going beyond that contained in the abstract, such as discussion of the abstract, presentation of data or other details that will be presented at the Congress, is under embargo until the actual presentation.

Violation of the embargo may result in the abstract being withdrawn from the Congress and/or other measures deemed appropriate.
It is not considered a violation of this policy if the information contained in the abstract is presented or has been accepted for presentation at another meeting (as noted during abstract submission), or if the abstract is published in a peer-reviewed journal after the abstract submission deadline.

It is the responsibility of the submitting author to inform concerned parties (such as agencies) about this policy. If there is a breach of the embargo at any time by a media organization, we ask that the company or organization contact the Organizers communications department immediately.

MEDIA POLICY
Media credentials are reserved exclusively for working members of the editorial media, including print, broadcast, radio or online. In order to maintain an environment conducive for quality professional interactions, media credentials are only available to media that are related to the industry, or those that cover another relevant topic. Public relations, advertising, publishers and marketing personnel representing manufacturers do not qualify for media credentials. Video production companies that are representing Contractors or those that are charging companies to be covered do not qualify for media credentials. All media are required to follow the media policy in its entirety. Approved individuals who abuse their media privileges or who misrepresent themselves in obtaining their media passes may risk having their credentials revoked, and their names banned from attending ISTH congresses in future years.

THIRD PARTY COMPANIES
The Organizers will communicate exclusively with clearly identified third party companies officially designated in writing by a Contractor as its representative. In such event, the Organizers will have no duty to communicate separately with such Contractor. Queries received from third party companies (i.e. communication and press agencies) which do not clearly indicate which Contractor they are representing, and that have not been properly designated as the representative of that Contractor, will not be answered.

GOVERNING LAW
This Contract is made and shall be governed under the laws of the State of North Carolina. Exclusive jurisdiction and venue of any actions arising out of, or relating to or in any way connected to this booking, its negotiation or termination, or the event, will be in the federal or state courts located in or near Hillsborough, North Carolina. Contractor acknowledges that its agreement to this Governing Law provision is a material part of this Contract, and hereby waives any objection to jurisdiction or venue in North Carolina.

INTERPRETATION AND ENFORCEMENT
The Organizers shall have full power to interpret and enforce all regulations for the Congress and the power to make amendments and/or further regulations that are considered necessary for the proper conduct of the Congress. Such decisions shall be binding on all Contractors. Failure to comply with any Terms and Conditions may be sufficient cause for the Organizers to require the immediate removal of the offending exhibitor or sponsor, and may result in forfeiture of all further rights to exhibit at future congresses of the Organizers, together with all fees paid.

In addition to and without limiting the foregoing, the Contractor fails to comply in any substantial respect with these Terms and Conditions, the Organizers shall have the right to exclude the Contractor, its employees, suppliers and agents, and to sell its exhibition space and/or sponsorship options. The Contractor however will be liable for any loss suffered by the Organizers thereby, and all monies paid by the Contractor shall be absolutely forfeited to the Organizers.

SEVERABILITY CLAUSE
No amendments, changes, modifications or alterations of this Contract shall be binding upon either party hereto unless in writing and signed by both parties. If any of the provisions of these Terms and Conditions are held to be void or unenforceable, then such void or unenforceable provisions shall be replaced by valid and enforceable provisions which will achieve as far as possible the economic business intentions of the parties. All other provisions of the Terms and conditions that are not being affected remain valid.
