

ISTH 2017 Congress LIVE Broadcast Schedule

All times are noted in Coordinated Universal Time UTC

To identify the session times in your own time zone, visit <https://www.worldtimebuddy.com/>

Monday, July 10

- 14:15 – 14:45 UTC **Interviews from the ISTH 2017 Congress**
- 14:45 – 15:30 UTC **Kenneth M. Brinkhous Memorial Lecture: Hemophilia Therapy - From Disease to Cure**
- Hemophilia: From Royal Gene to Gene Therapy**
Speaker: H. Marijke van den Berg, Netherlands
- 15:45 – 17:00 UTC **What Happens After Acute VTE?**
- Prediction of Recurrence** 15:45 UTC
Speaker: Sabine Eichinger, Austria
- Prevention and Treatment of the Post-Thrombotic Syndrome** 16:10 UTC
Speaker: Ariana Ten Cate-Hoek, Netherlands
- Chronic Thromboembolic Pulmonary Hypertension** 16:35 UTC
Speaker: Irene Lang, Austria
- 17:15 – 18:00 UTC **Marion I. Barnhart Memorial Lecture: Platelet Signaling**
- Snakes and Ladders: New Roles for Platelets in Health and Disease**
Speaker: Stephen Watson, United Kingdom

Tuesday, July 11

- 14:15 – 14:45 UTC **Interviews from the ISTH 2017 Congress**
- 14:45 - 15:30 UTC **Hanns Gotthard Lasch Plenary Lecture: Management of Thromboembolism**
Treatment of Venous Thromboembolism in 2017
Speaker: Harry Büller, Netherlands
- 15:45 - 17:00 UTC **Novel Therapies for Hemophilia**
- Gene Therapy Replacement** 15:45 UTC
Speaker: Katherine High, United States
- Small Molecules in the Treatment of Hemophilia** 16:10 UTC
Speaker: Steven Pipe, United States
- Nanobody Based Therapy** 16:35 UTC
Speaker: Peter Lenting, France
- 17:15 – 18:00 UTC **Fritz Koller Plenary Lecture: Vascular Diseases and Metabolism**
- Angiogenesis Revisited: Role and (Therapeutic) Implications of Endothelial Metabolism**
Speaker: Peter Carmeliet, Belgium

Wednesday, July 12

14:15 – 14:45 UTC

Interviews from the ISTH 2017 Congress

14:45 – 15:30 UTC

Erwin Deutsch Plenary Lecture: Transfusion Medicine and Cell Therapies
HSC to Megakaryocytes: The Uncovered Role of Glycans in Hematopoiesis
Speaker: Karin M. Hoffmeister, United States

15:30 – 17:00 UTC

Risk Factors of Venous Thromboembolism

Contribution of Factor XIII to Thrombosis

15:30 UTC

Speaker: Nicola Mutch, United Kingdom

Microvesicles and Thrombosis

15:55 UTC

Speaker: Romaric Lacroix, France

Genetic Risk Factors of Venous Thromboembolism in Humans and Mice

16:20 UTC

Speaker: Toshiyuki Miyata, Japan

Oscar D. Ratnoff Memorial Lecture: Tissue Factor Biology

17:15 – 18:00 UTC

Tissue Factor Flip-Flopping Between Coagulation and Signaling

Speaker: Wolfram Ruf, Germany
